The Fashion Parade of the Garden

1933

ALL-AMERICA SELECTIONS

1946

ALL the "All America Selections" introduced since 1933 are grouped here. They represent the newest developments in flowers, the latest fashions. In making these your choice, you are assured of having selected the best for your garden. Then again, they make ideal Christmas Gifts, the values of which may be easily regulated to suit your limit.

HERE IS HOW THE "ALL AMERICA SELECTIONS" ARE MADE

"ALL AMERICA SELECTIONS" are the choice of the Nation's leading horticultural judges, as being the most worthy new varieties introduced each year. They include species from around the World, imported and planted in twelve different localities in the United States, from whence they are judged. Their recommendations are authentic and dependable; your safeguard against ambiguous creations or claims. Novelties within our garden walls intrigue us, for they tax our keenest anxiety in expectation of unrevealed new beauties—and we pride ourselves of keeping in with the modern touch.

SENSATIONAL NEW LETTUCE

It Heads in Hot Weather

Introduced in 1944 as a heat resistant variety and for which it was awarded a bronze medal, "Great Lakes" has lived up to all claims made for it.

Proven—From Cuba, a customer writes, "With Great Lakes lettuce seeds, I was able to obtain the first head lettuce after trying with every type and kind of seed advertised."—Oct. 12, 1944.

Great Lakes (B.M., A.A.S., 1944). Imperial type. The best Summer lettuce to date, being remarkably resistant to heat drought and tipburn. Being slow-in-going-to-seed, it insures heads, even in hot weather and by the amateur, too. Its crispy, thick leaves fold well over solid heads, which when unravelled make desirable salad pieces; most delicious.

Pkt. 25c; ½ oz. 75c

1946 A.A.S. WINNERS

PETUNIA, Colossal Shades of Rose (Silver Medal) 100% double, plain, waved, ruffled and fringed petaled; up to 4 inch blooms from light pink to deep pink and purplish rose, mostly the latter; vigorous grower; 18 in.

DELPHINIUMS

VETTERLE & REINELT'S (PACIFIC HYBRIDS) are classed with the top-ranking strains of the world. Praises of them are just as numerous and sincere from the professionals as from the amateurs.

HAND CROSS-POLLINATED seed is V. & R.'s best strain. This stock possesses the most desirable characteristics, qualities which are intensified to the greatest degree possible. The percentage of **show specimens** from this hand cross-pollinated seed is the highest obtainable.

Sow in January-February

Blue Bird Series (new 1941). At last a true blue Delphinium; clearest medium blue with white bee. Besides coming true to color they carry well rounded 2½ in. flowers; long graceful spikes. A new standard in blues of today.

BLACK KNIGHT (new '39). The darkest of them all; the heavy velvety texture lends a tone vividness and luminosity never seen before; 2½ in. florets.

BLUEJAY. Strikingly clear true blue; medium to dark, intense and alive with dark contrasting bee.

CAMELIARD SERIES (new 1940). Pure lavender self with white bee. Perfectly formed flowers; well balanced spike.

ROUND TABLE SERIES (new 1940, July delivery). New color developments from over 300 crosses possessing immense size spikes.

Each pkt. \$2.50, Collection 5 vars. \$10.00.
½ pkt. \$1.25, Collection 5 vars. \$5.00.

STANDARD COLORS

Light Blues. White and dark bees.

Medium Blues. The clearest blues.

Dark Blues. Mostly white bees.

Whites. Shades.

Burnett's Mixture. Mixed from the above
Each: Pkt. \$2.00, Collection 4 vars. \$7.00.
½ pkt. \$1.00, Collection 4 vars. \$3.50.

DELPHINIUM, Cambridge Blue (S.M., 1933). Chinensis type blooms first year if sown early; azure blue, 18 in...Pkt. 25c

DIANTHUS, Splendens (S.M., 1935). A striking annual crimson pink with bold white center.....Pkt. 15c

HOLLYHOCK, Indian Spring S.M., 1939). Actually blooms in 5 months, semi-double pink and rosy-carmine flowers in abundance; 6 ft.....Pkt. 15c

You Give (2) Gifts, When You Give (1)

YOU GIVE TO BIRDS, TOO, WHEN YOU GIVE FRIENDS BIRD FEEDERS FOR CHRISTMAS

No more appropriate or more enjoyable gift can one receive, than one which will help feed our wild birds, especially in Winter. At this time of the year when the ground is hard and covered with snow, very little natural food is available. But for the habit of birds eating insects, life on this planet would be impossible. Therefore, what little food we give to birds now, is but a pittance of compensation in comparison to the work they render.

Help feed them this Winter by giving gifts of Bird Feeders. Next Spring they will sing songs of thanks.
